

## **Sample Precinct Caucus Resolution for Complete Streets**

WHEREAS, Minnesota's roads are too often designed to prioritize moving cars faster without full consideration for the ability of children, seniors, pedestrians, bicyclists, transit riders, and others to travel safely along and across those roads; and

WHEREAS, a Complete Streets policy means that our streets are planned to be safer and more accessible for pedestrians, transit riders, bicyclists, and drivers -- all users, regardless of age or ability; and

THEREFORE, BE IT RESOLVED THAT the \_\_\_\_\_ Party supports statewide and local Complete Streets policies to ensure that roads are planned and designed to fully consider safety and access for all users.
